Hello All

Just a quick update on the 2010 Convention and the Annual General Meeting in Stratford, Ontario.

The organizers, Paul & Laurie Finch with the Lucan Homing Pigeon Club, and the Ladies Auxiliary did a fantastic

job making this year's convention a huge success. Everything was perfect-The accommodations and meals,

scenic surroundings, a great race and the weather.

The Annual General Meeting reflected upon the past years' activities and our continued focus on promotions.

The President addressed the resignation of Monik Collins, the development of the database (streamlining the

yearbook & award calculations through new technology), clocking limits and how they will affect the new

coefficient calculation system, the revamping of the Constitution, the 2 membership suspensions, proposed

changes to the format of future conventions starting with the 2011 Convention in Niagara Falls, the accomplishments of our Special Events Co-ordinator, and the hiring of staff (utilizing the Federal

government

assisted program which enables non-profit organizations to hire qualified staff at no cost to them).

The

President's message was followed by the director's reports, and then the floor was open to discussion. The

response of the members present indicated their willingness to move into the future with a Board of forward

thinkers and the importance of a positive outlook. The complete President's message should be available on this

site in the coming weeks.

Congratulations to this year's President's Award winner, a sportsman and an excellent promoter of our sport,

whose generosity and willingness to assist in promotional endeavors stands as a model for all racing pigeon

fanciers. Congratulations Mr. Joe Erwin (of the Hamilton Central Racing Pigeon Club).

Thanks Guido,

Are those the official results?

The reason I am asking is because I don't see the handlers names on there and the speeds.

Paul,

Yes those results are official as far as I know. The Veen's dominated with Rick getting the top four and John getting the next four. It was a quick race.....I can't remember the exact times but I think they did about 360 km in about 4 hours 40 minutes approx.
